MD SHELVING SYSTEM

Wall Unit Design Template

DIRECTIONS

Design the layout of your shelving unit using the grid on the right. We encourage rough sketches, your sketch DOES NOT need to be to scale. If you would like to include dimensions on your

drawing, please make sure they are legible. Fill out you have finished, please scan this sheet and e-macom.	
	WALL - MOUNTED Closed Frame
Height:	inches (maximum height is 12
Width:	inches (maximum width is 12 f
Depth :	inches
VERTICALS	HORIZONTALS
Determine the number of vertical divisions of your shelving design.	Determine the number of horizontal divisions of your shelving design.
# of Vertical Divisions :	# of Horizontal Divisions :
Identify if you want the vertical divisions to be equally spaced apart.	Identify if you want the horizontal divisions to be equally spaced apart.
Equally Spaced: Yes	Equally Spaced: Yes
If no, please identify the spacing desired. Label each bay from left to right and give the approximate dimension in inches below. (ex: V1=15", V2=24", V3=15")	If no, please identify the spacing desired. Label each division from left to right and give the approximate dimension in inches below (ex: H1=18", H2=30", H3=30", H4=18")
(Optional) Customize the depth of the interior vertical plates. The outside frame will equal the overall depth.	(Optional) Customize the depth of the interior vertical plates. The outside frame will equal the overall depth.
Vertical Plates Depth:	Vertical Plates Depth:
FLOOR AND CEILING CONDITION	
	to the "height" dimension given MINUS 1/2" to
_	m top of shelf to ceiling to the 'height' dimension given
Determine how your shelving unit will finish to	
_	be sent to laminate to plywood cabinet base
